

Seventh Session UN-GGIM: Americas

Séptima Sesión
UN-GGIM: Americas

UN-GGIM: Americas

REGIONAL COMMITTEE OF
UNITED NATIONS
ON GLOBAL GEOSPATIAL
INFORMATION MANAGEMENT
FOR THE AMERICAS

OVERVIEW OF THE CARIBBEAN GEOSPATIAL DEVELOPMENT INITIATIVE

UN-GGIM: Americas

CARIGEO: Status & Next Steps

Our Expected Future

- A **community** of spatial data producers and users is **formed** and remains **active**
- GIS and data management **capacities** are **improved** across the region
- **Increased funding** is available for the creation and updating of **fundamental spatial datasets**
- Spatial data is **shared** more broadly and **more openly** in the Caribbean
- Development decisions and **policy-formulation** take more advantage of geoinformation
- **National Legislation** to regulate and promote the use of geoinformation is enacted
- **Agreements** are instituted for **collaboration** and **corporation** on the use of geoinformation regionally
