COVID-19 Data
- Confirmed cases
- Suspect cases
- Negative cases
- Deaths

Aggregation: State and Municipality

Cartography (GeoStatistical National Framework)

Open source, open data and open standards

01
Basic web map visualization capabilities

- Zoom in, zoom out, drag
- Search
- Turning geographic layers on/off

02
Supports OGC and OSGeo interoperability standards

- WMS
- WMTS
- TMS
- WFS
- WCS
- WMS-T

03
Scalable

- Supports millions of geographic objects
- Concurrent access limited only by the capacity of the underlying infrastructure

Next steps

- We're in the last stage of review and adjustments. In a few days it will be public.

- More data and statistical indicators of context will be added.

- New functionalities will be incorporated, e.g. comparative graphs.
