UN-GGIM Americas, Standards Capacity Building Workshop for the Caribbean

August 2nd and 3rd, 2015

United Nations Plaza, Secretariat Building, room S-1522, 15th floor
New York City, USA

Background

This workshop will focus on international geospatial standards capacity building for representatives from the Caribbean region. Based on the UN-GGIM Core Standards guide and other materials, the goals of the workshop include;

- Introduction to OGC and International Geospatial Standards
- Presentation of the UN-GGIM Core Standards Guide
 - What are the standards associated with each level and what do they do?
 - What are the key applications/use cases for my country?
 - What level of capacity does my country have?
 - What level of capacity does my country want?
- Discussion amongst delegates on potential regional cooperative applications/use cases
- Maintain an open environment throughout intended to foster a vibrant discussion amongst delegates.

Preparation

Delegates are expected to work with stakeholders in their respective countries to identify priority applications/use cases before the workshop. Monday will primarily consist of delegates creating and presenting results of a self-evaluation (see agenda below for more details). Presentations are expected to be no more than 5 Minutes.

A laptop capable of running power point is required. A presentation template and more information on the self-evaluation process will be provided prior to the workshop. Presentations will be compiled for potential further analysis by the workshop sponsors.

Delegates are also encouraged to ask questions and share ideas throughout the workshop!

A certificate of attendance will provided at the end of the Workshop on August 3rd.

Logistics

More information on logistics will be provided prior to the workshop.

Contact Information

For questions on the workshop, please contact Efrain Limones (efrain.limones@inegi.mx.org), Monica Aquayo (monica.aguayo@inegi.org.mx), Eduardo de la Torre (idelatorre@inegi.org.mx), Gabriela Seco (gabriela.seco@inegi.org.mx) or Trevor Taylor (ttaylor@opengeospatial.org).
