

# DIAGNOSIS IN THE MANAGEMENT OF GEOSPATIAL INFORMATION IN THE AMERICAS

3<sup>rd</sup> Meeting UN-GGIM: Americas  
México, October 2016

UN-GGIM

United Nations Committee of Experts on  
Global Geospatial Information Management

ggim.un.org

# Objetives of the diagnosis

- ✓ Knowing the status of the **institutional framework** supporting geospatial information management in the region
- ✓ Knowing the current situation on the **use of norms, standards and technical specifications.**
- ✓ Identify advances on the **integration of statistics and geospatial information** in the Americas.
- ✓ Knowing the situation risk, vulnerability and threat management and the use of geospatial information.

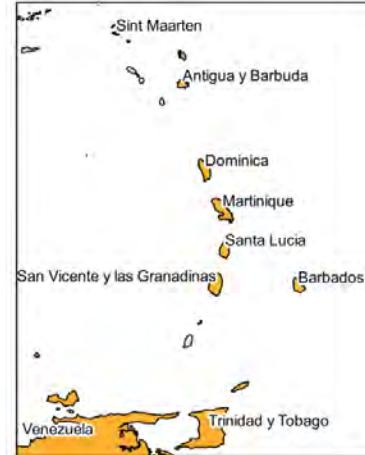

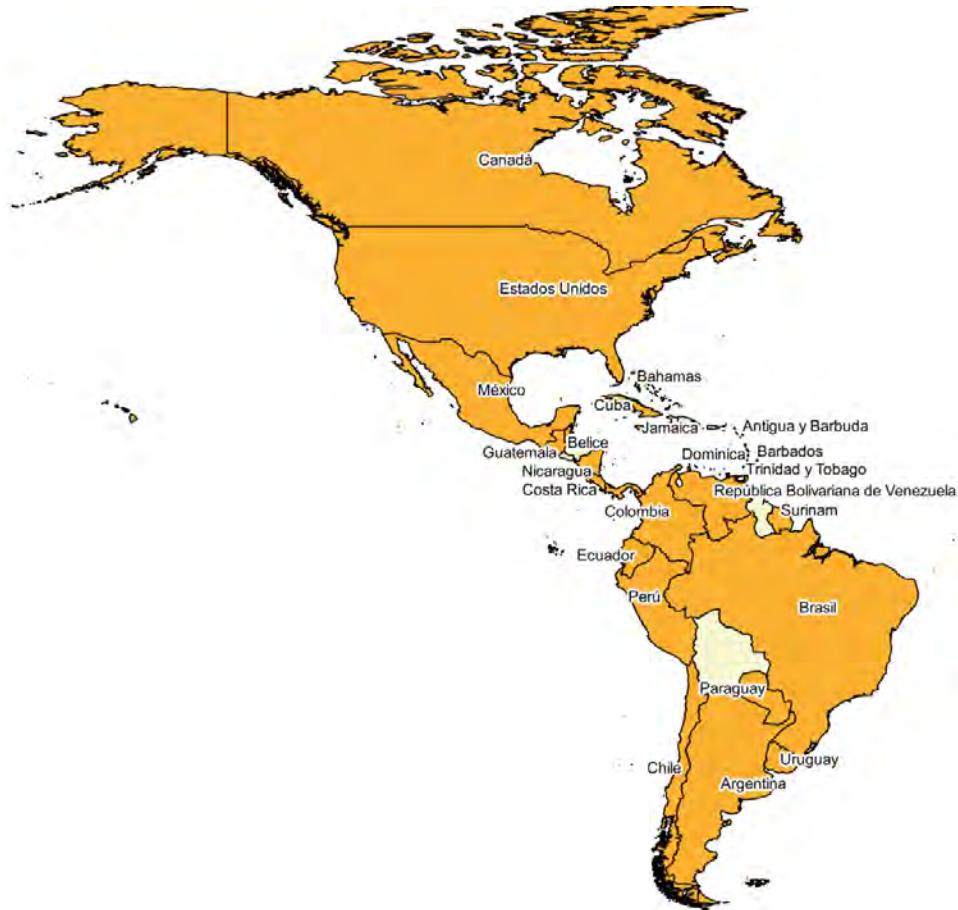

UN-GGIM

United Nations Committee of Experts on  
Global Geospatial Information Management

# Response to the questionnaire

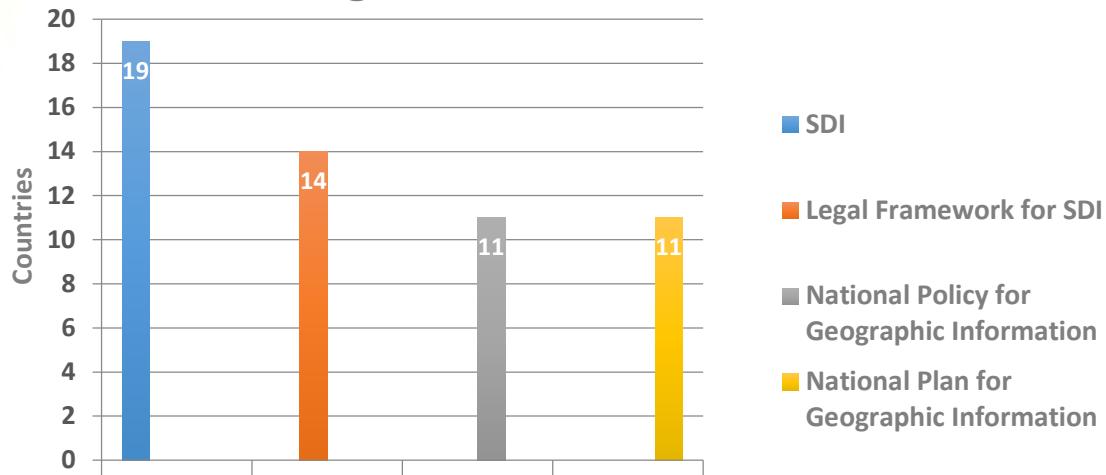

- Antigua y Barbuda
- Argentina
- Bahamas
- Barbados
- Belice
- Brasil
- Canadá
- Colombia
- Costa Rica
- Cuba
- Chile
- Dominica
- Ecuador
- Estados Unidos
- Guatemala
- Jamaica
- Martinique
- México
- Nicaragua
- Panamá
- Paraguay
- Perú
- República Bolivariana de Venezuela
- San Vicente y las Granadinas
- Sint Maarten
- Santa Lucía
- Surinam
- Trinidad y Tobago
- Uruguay

# Institutional Framework for GI management

COUNTRY	SDI RESPONSIBLE ORGANIZATION
Antigua y Barbuda	División de Topografía y Cartografía
Argentina	Instituto Geográfico Nacional
Bahamas	Centro Nacional de Información Geográfica
Belice	Ministerio de Recursos Naturales y de Agricultura
Brasil	Comisión Nacional de Cartografía
Canadá	Natural Resources Canada's Centre for Mapping and Earth Observation
Colombia	Instituto Geográfico Agustín Codazzi
Costa Rica	Instituto Geográfico Nacional
Cuba	Oficina Nacional de Estadística e Información
Chile	Ministerio de Bienes Nacionales
Ecuador	Instituto Geográfico Militar y Consejo Nacional de Geoinformática
Estados Unidos	FGDC activities are administered through the FGDC Secretariat, hosted by the U.S. Geological Survey
Jamaica	Ministerio de Agua, Tierra, Medio Ambiente y Cambio Climático
Martinique	Instituto Geográfico Nacional
México	Instituto Nacional de Estadísticas y Geografía
Panamá	Instituto Geográfico Tommy Guardia
Perú	Presidencia del Consejo de Ministros
Sint Maarten	Ministerio de Vivienda, Ordenamiento del territorio, Medio Ambiente e Infraestructura
Uruguay	Presidencia de la República Oriental del Uruguay

# Geospatial and Statistic Information

## GI National Agencies and National Statistic Offices

Indique el grado de relación entre la ANIG y la ONE de su país según la siguiente escala:

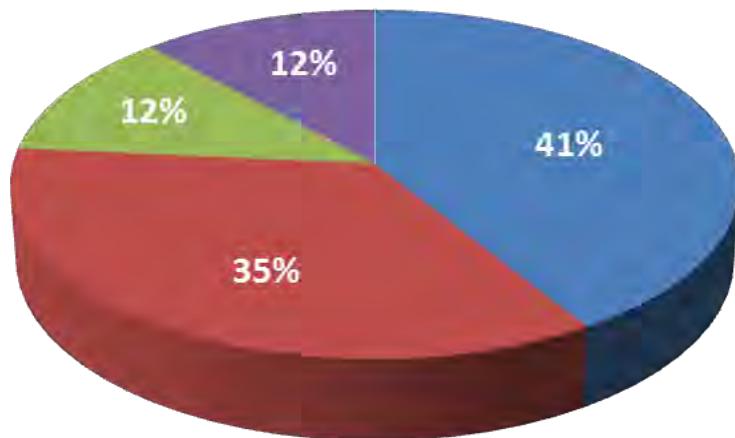

1. Plenamente integrados
2. Estrechamente vinculados
3. Separados

# Geospatial and Statistic Information

## Means for integrating geospatial and statistics information

Ideas or thoughts on how geospatial and statistics information could be linked effectively

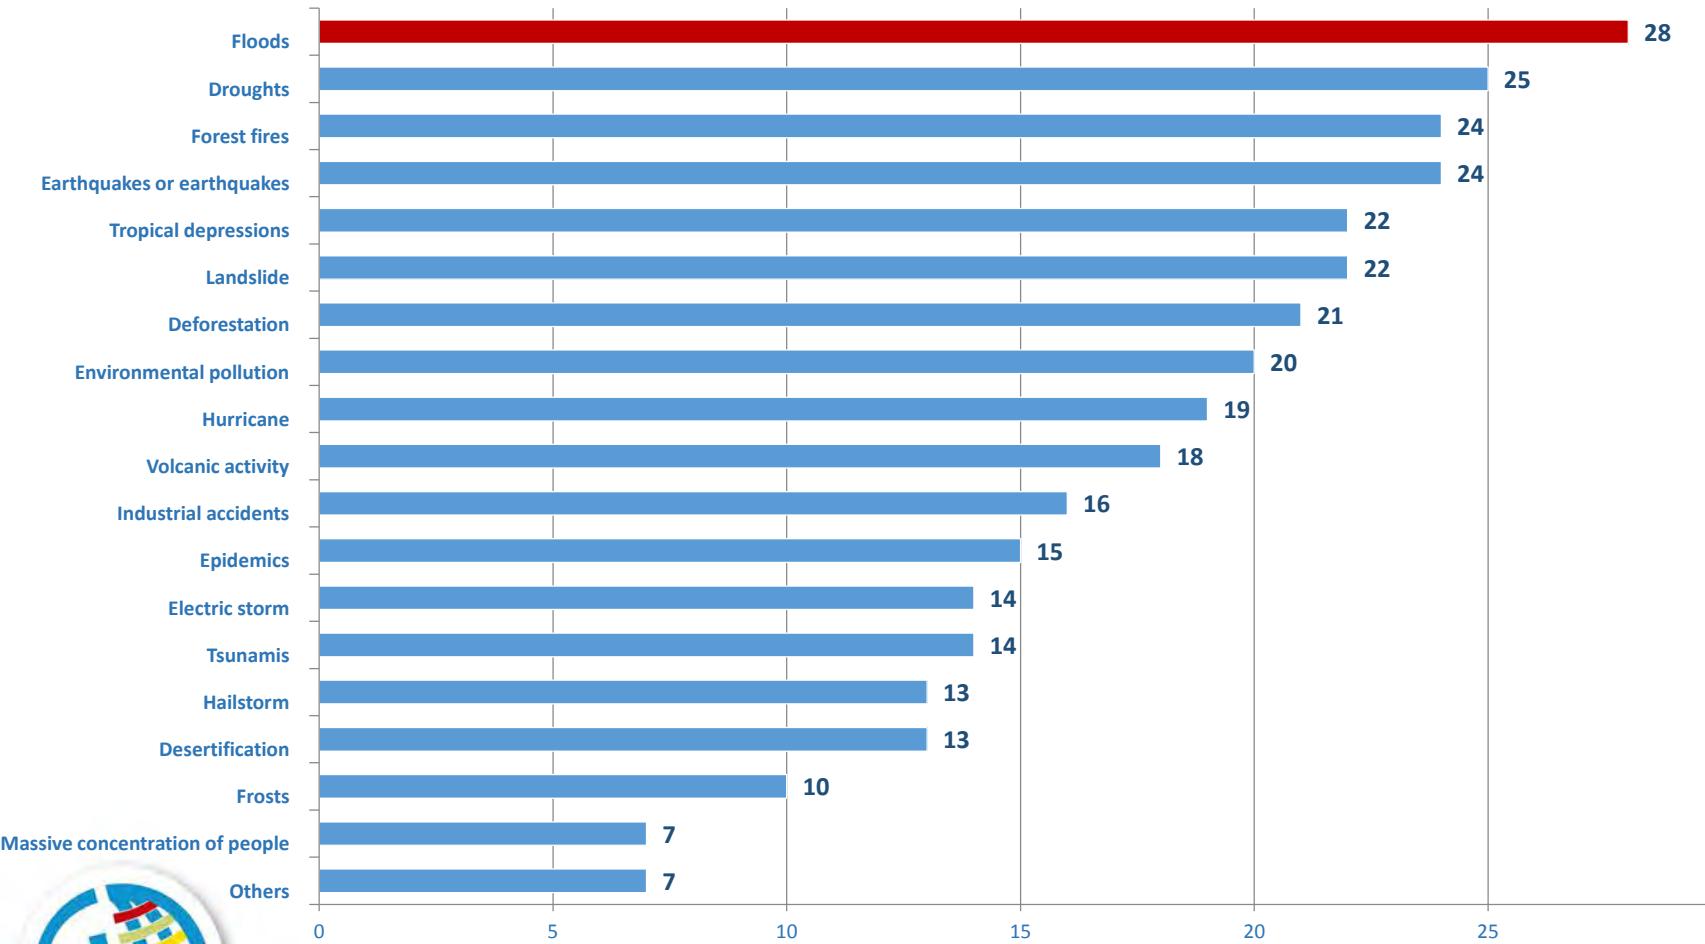

- Georreferenciación y geocodificación
- Organización, política e infraestructura adecuadas de las entidades a cargo
- Interoperabilidad e integración
- Creación de cultura en el uso de la información integrada

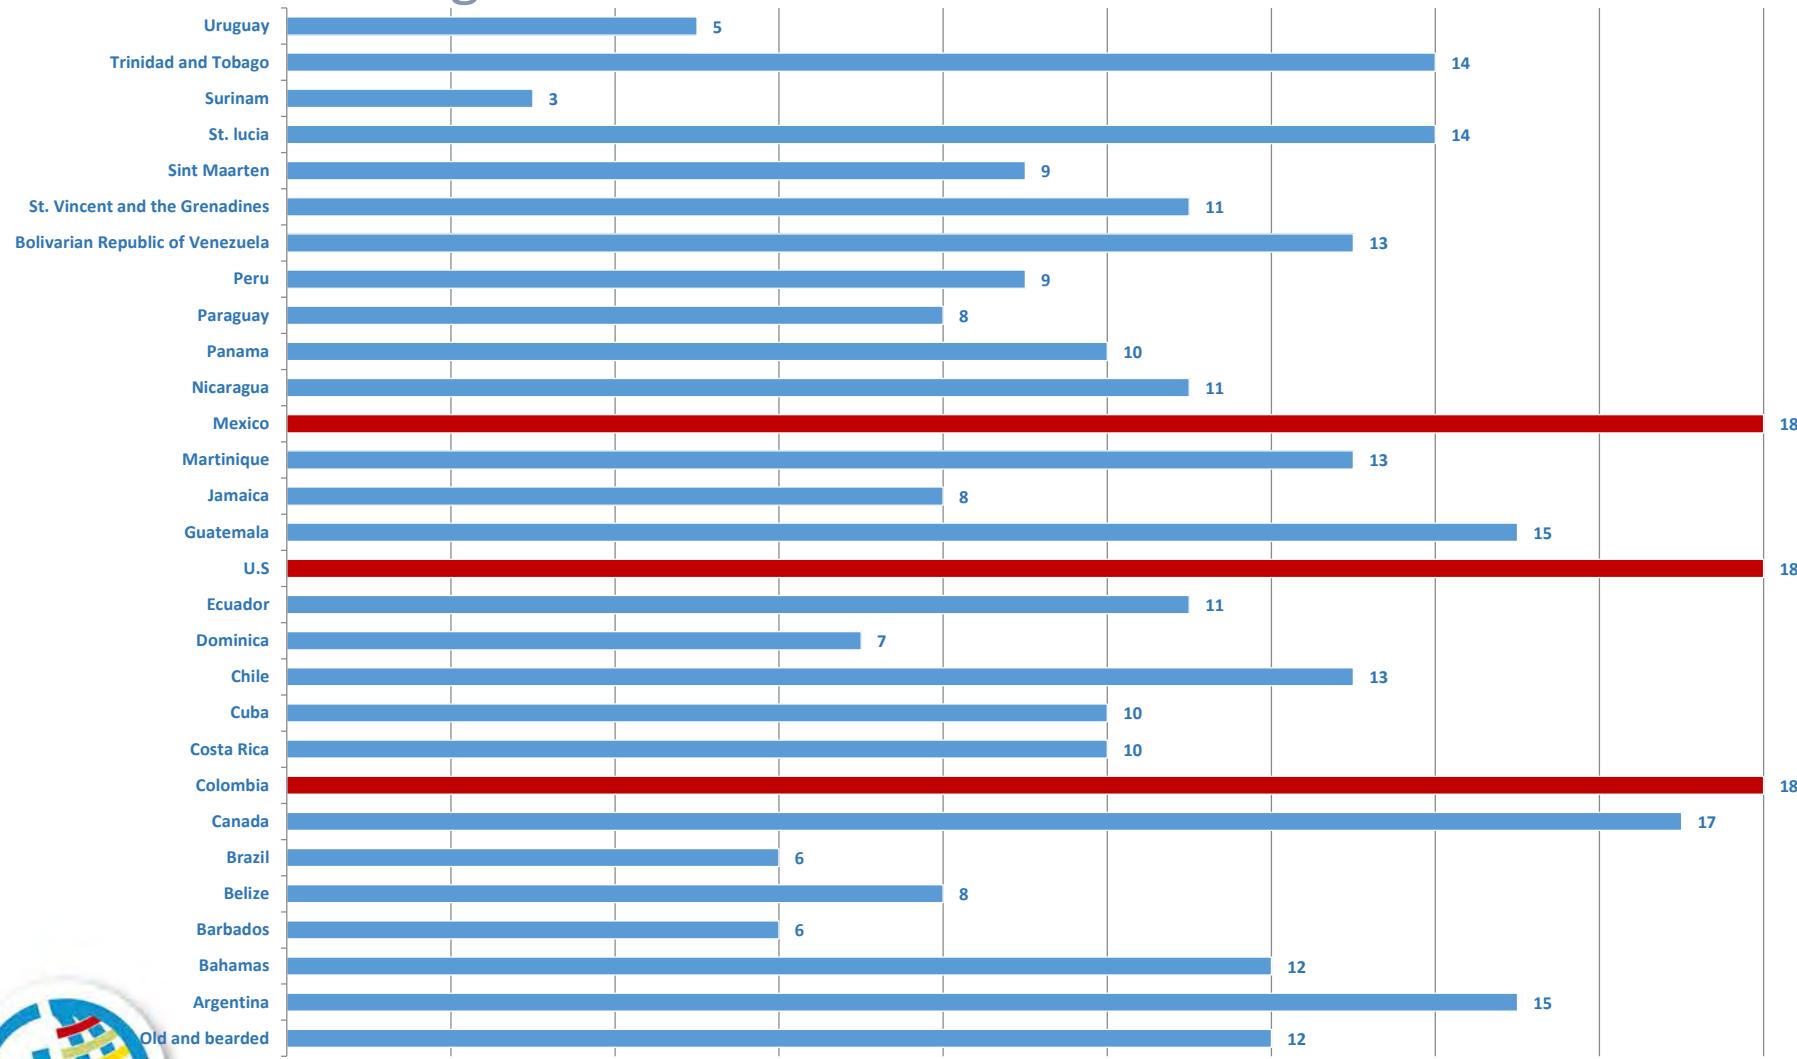

# Access and Use of Information Geospatial for Risk Reduction and Climate Change

## Types of phenomena present in countries

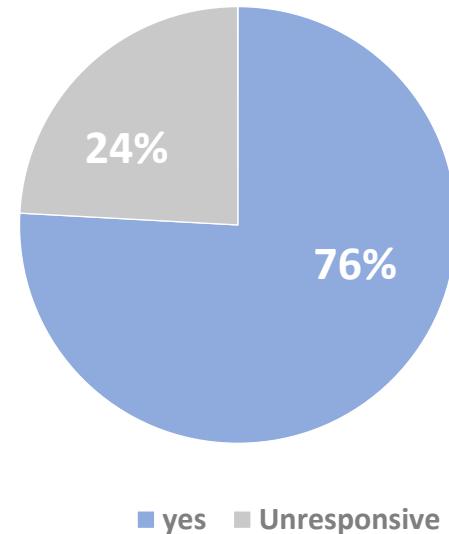

# Access and Use of Information Geospatial for Risk Reduction and Climate Change

# Access and Use of Information Geospatial for Risk Reduction and Climate Change

**7 countries** do not have any associated mapping for Risk, Threat and Vulnerability.

It is worrying considering that all countries have identified phenomenon that could affect ***negatively their territories.***

## Final Remarks

- ✓ Acknowledgement to all the countries that provided national data and background to the diagnosis
- ✓ Important findings about gaps to be addressed
- ✓ Best practices to be disseminated and exchanged
- ✓ Baseline for UN-GGIM working groups
- ✓ Need to update this information periodically and extend to all the countries of the region
